Join the Movement

We are a national movement dedicated to fighting for the end of ageism.

With over 230,000 members from coast to coast, we advocate for changes to government policies that ensure financial security and improvements to a healthcare system in crisis.

And for over 40 years, our non-partisan, not-for-profit organization has succeeded in improving life for seniors.

**When we speak with one voice, politicians hear us.
That's why we need your support.**
