

Right at Home's Exceptional Care *Enhanced* with Sensi Care CoPilot

Introducing RightCare+, our same great in-person care services taken to another level with the help of Sensi's added insights.

Sensi uses a small device (no bigger than an air freshener) to provide your Care Team with an added understanding of your loved one's physical, emotional, and cognitive needs through an "always-on" virtual care assessment technology.

RightCare⁺

Early Detection for Proactive Care

Whether it's physical issues such as falls, UTIs, medication errors, or cognitive health issues like memory impairment, Sensi intelligent insights detect and alert your Right at Home Care Team to take action steps.

Even when your in-person Care Team is not there, Sensi's 24/7 assessment identifies possible health needs proactively, alerting our team.

Peace of Mind for Your Loved One

Reduced Hospitalizations

Sensi's insights help your Care Planner proactively reassess the Care Plan and provide guidance.

Independence & Safety

Sensi helps your loved one stay independent longer, allowing them to age in place safely.

Personalized Care

Sensi is able to detect your love one's satisfaction allowing us to optimize their experience by pairing them with the Caregivers they connected with the most.

"Sensi gives me the independence
I want in the place I love."

Gloria, Older Adult

"Sensi never takes a day off—
always by my mother's side."

Gloria, Older Adult

Why Sensi.Ai?

The Perfect Blend of Human and Technology

Sensi identifies over 100 types of crucial insights—including possible early signs of pneumonia, UTIs, care resistance, cognitive changes, medication mismanagement and emergency events such as falls—enabling proactive care. These insights allow your Care Planners to continually have the best Care Plan and Caregivers for your loved one.

Proven Technology

Sensi is trusted by home care companies internationally, having repeatedly demonstrated its lifesaving success and ability to enhance caregiving services—all with unmatched precision, privacy, and comprehensiveness. We are now excited to bring Sensi to Canada.
